**Question 1: Do respondents have any comments, additional to those made in their responses to the November consultation, on Ofcom's approach and conclusions on market definition as set out in Section 3 of this document?**

No

**Question 2: Do respondents have any comments, additional to those made in their responses to the November consultation, on Ofcom's proposed market power findings for the Hull area, Market 1 or Market 2?**

Yes there is a growing movement in Hull that are slowly realising that Hull does not and should have a choice of ISP other than the incumbent ISP

**Question 3: Do respondents agree with the approach set out by Ofcom for its market power assessment in Market 3 and its conclusion that there is no-SMP?**

**Question 4: Do respondents have any comments, additional to those made in their response to the November consultation, on Ofcom's proposed regulatory remedies for the Hull area Market 1 or Market 2?**

Yes that the incumbent ISP is treating it's users badly with speeds nowhere near up to 8meg, in fact between the hours of 4pm and 1am we are lucky to see speeds of above 1meg unless it is from their own cache server, which means they are oversubscribed.

**Question 5: Do respondents agree with Ofcom's proposals in relation to providing affected parties with a period of notice prior to the removal of certain SMP services conditions in Market 3? In particular do respondents agree with the proposed notice period and the proposed SMP service conditions to which the notice period applies?**
