What do you want Ofcom to keep confidential?	<i>Keep nothing confidential</i>
If you want part of your response kept confidential, which parts?	
Ofcom may publish a response summary	<i>Yes</i>
I confirm that I have read the declaration	<i>Yes</i>
Ofcom should only publish this response after the consultation has ended	<i>You may publish my response on receipt</i>

Question 1: Do respondents have any comments, additional to those made in their responses to the November consultation, on Ofcom's approach and conclusions on market definition as set out in Section 3 of this document?

Kingston Communications do not offer as far as I'm aware, any type of SDSL service.

Kingston Communications are not required to 'keep up' with advances in broadband delivery. Because of that, new ADSL technologies are not introduced into the Hull area, and 8Mb broadband remains the maximum attainable speed.

Question 2: Do respondents have any comments, additional to those made in their responses to the November consultation, on Ofcom's proposed market power findings for the Hull area, Market 1 or Market 2?

Question 3: Do respondents agree with the approach set out by Ofcom for its market power assessment in Market 3 and its conclusion that there is no-SMP?

Question 4: Do respondents have any comments, additional to those made in their response to the November consultation, on Ofcom's proposed regulatory remedies for the Hull area Market 1 or Market 2?

Ofcom need to ensure that KC produce a clearly accessible reference offer, and publish it online to make it easily accessible to any interested parties.

Ofcom also need to ensure that any wholesale pricing issued by KC is fair and above board. What we don't want is to leave KC to it's own measures, allow it to create an unfair pricing policy, and then have to wait for a competitor to fight KC for breaking its regulatory agreement.

I suggest that Ofcom places a series of checks on KC to ensure that they are meeting regulatory requirement re: fair access.

Question 5: Do respondents agree with Ofcom's proposals in relation to providing affected parties with a period of notice prior to the removal of certain SMP services conditions in Market 3? In particular do respondents agree with the proposed notice period and the proposed SMP service conditions to which the notice period applies?
