**Question 1: To what extent do you consider that DTT, DSat, cable and IPTV are in competition with one another for subscribers of pay TV services ? either at present or in the future?:**

**Question 2: To what extent do you consider the Proposal is likely to deliver benefits to the consumer?:**

It will not benefit the consumers at all, and will only reduce the content available for free on the freeview service.

**Question 3: To what extent do you consider that there is scope for sustainable competition in pay TV on the DTT platform and, more broadly, across all pay TV platforms?:**

I do not think it is a good idea at all to bring pay tv to DTT

**Question 4: What are likely to be the key aspects of competition between providers of retail pay TV services on the DTT platform? E.g. what is the role of premium sports and movies content?:**

**Question 6: To what extent, if at all, do you consider that the Proposal would be likely to lead to any of the public policy concerns outlined at Section 4?:**

**Question 7: Specifically, to what extent do you consider that the Proposal would be likely to lead to consumer confusion?:**

**Question 8: To what extent do you consider that it is beneficial for consumers to be able to obtain Sky and existing DTT pay TV content without having to purchase separate STBs?:**

**Question 9: Do you consider that the Proposal might lead to any additional public policy concerns:**

**Question 10: If Sky becoming the only provider of pay TV services on the DTT platform were likely to have a significant detrimental effect on competition, do you consider that it is possible to address this through a set of additional conditions and/or directions? If so, what form should those conditions/directions take?:**
