Question 1: To what extent do you consider that DTT, DSat, cable and IPTV are in competition with one another for subscribers of pay TV services ? either at present or in the future?:

There is enough choice on Sky without giving them another chance to extract money from consumers. Pay TV on DTT already exists in the form of top up TV.

Question 2: To what extent do you consider the Proposal is likely to deliver benefits to the consumer?:

Very limited benefit.

Question 3: To what extent do you consider that there is scope for sustainable competition in pay TV on the DTT platform and, more broadly, across all pay TV platforms?:

I think PY TV should be taken off DTT.

Question 4: What are likely to be the key aspects of competition between providers of retail pay TV services on the DTT platform? E.g. what is the role of premium sports and movies content?:

I think that it would provide another outlet to the already Sky monopoly of most of the population for pay TV.

Question 5: Do you consider that if Sky were to become the only provider of pay TV on the DTT platform it would be likely to have a significant detrimental effect on competition in the long term? How might this affect the development of other platforms for the delivery of pay TV services?:

This would reinforce Sky's virtual monopoly and would only increase costs to the consumer.

Question 6: To what extent, if at all, do you consider that the Proposal would be likely to lead to any of the public policy concerns outlined at Section 4?:

Question 7: Specifically, to what extent do you consider that the Proposal would be likely to lead to consumer confusion?:

Question 8: To what extent do you consider that it is beneficial for consumers to be able to obtain Sky and existing DTT pay TV content without having to purchase separate STBs?:

Question 9: Do you consider that the Proposal might lead to any additional public policy concerns:

Question 10: If Sky becoming the only provider of pay TV services on the DTT platform were likely to have a significant detrimental effect on competition, do you consider that it is possible to address this through a set of additional conditions and/or directions? If so, what form should those conditions/directions take?:
