

**Question 1: Do you agree with Ofcom's proposed overall approach to improving the management of public sector spectrum holdings and, in particular, with Ofcom's conclusion that it will generally be preferable for public sector bodies to interact directly with the market?:**

**Question 2: What factors do you consider Ofcom should take into account in determining the programme of reform in the framework for managing public sector spectrum holdings?:**

**Question 3: Do you consider that the proposals should be phased in?:**

**Question 4: Do you agree with Ofcom's proposals about the frequency bands that offer the greatest potential benefits from band sharing? Are there other frequency bands where the facility to trade or lease spectrum from public sector bodies would be particularly attractive?:**

**Question 5: Do you agree with Ofcom's proposed approach to awarding public sector licences and RSA?:**

**Question 6: Should public sector spectrum trading be introduced at this stage in the Channel Islands and Isle of Man?:**

**Question 7: Should there be additional grounds, eg safety-related, for Ofcom to refuse consent to a proposed trade in certain frequency bands or for certain applications?:**

**Comments:**

The only way the MCA could generate money to pay for bandwidths is to pass it on to the client. Having just disposed of radio licence fees because they were uneconomic to run and impossible to police, this seems an inoperable choice
