

Response From Mr Mark O'Sullivan

Sir

I have seen a summary of the current numbering review consultation on the SayNoTo0870 website. My main concern is that numbers should not mislead customers about charges. I should like to see:

The proposed requirement that 0870 numbers be charged at the same rate as geographical numbers be implemented All revenue sharing numbers should be regulated by ICSTIS The use of personal (follow-me-anywhere) numbers to refer to numbers regulated by ICSTIS should be banned

Yours faithfully,

Mark O'Sullivan
