Biog: Widow, age 74. poor eyesight, ill health, no transport. Has trouble using mobile phone, digital camera and complicated web-sites. and my Sky tv choices

Desire, aspire (Yearn) to be more technie literate. Teaching Programs on TV could help if they wished. They show people how to cook and garden don't they?

Provide us with a Delia of the technology techniques who uses plain uncluttered language with a translation of jargon and acronyms, and let us learn to be independent and in touch. PLEASE.
