1. Overview

You should complete this form if you are applying for a community digital sound programme licence (“C-DSP”). You can find further information about C-DSP services in the [guidance notes for licensees and applicants](#).

This application form is divided into two parts – **Part A** (which we will publish on our website) and **Part B** (which will be kept confidential). This document constitutes Part A; [Part B of the application form](#) is available on our website.

If you encounter any issues using these forms, please contact broadcast.licensing@ofcom.org.uk.

The purpose of this form

You should complete this form if you are applying for a Community Digital Sound Programme (C-DSP) licence.

A digital sound programme service intended for broadcast by means of a local or small-scale radio multiplex service requires either a C-DSP licence or a local DSP licence. Ofcom’s published guidance notes set out some of the key issues that potential applicants need to consider in deciding which type of licence is suitable for them. In summary, C-DSP services are not run for financial gain and are required to provide social gain. C-DSP licences therefore include strict conditions to ensure that happens, and provide less flexibility than a local DSP licence. However, they do provide access to capacity that small-scale radio multiplex service providers are required to reserve solely for C-DSP services.

A C-DSP licence will be required even if the same programme service is also provided on any other platforms (e.g. FM, satellite), as separate licences are required for those.

As noted above, small-scale radio multiplex services will have reserved capacity for C-DSP services. Issue of a C-DSP licence does not, however, guarantee carriage on a small-scale (or local) radio multiplex service. That is a matter for agreement between the C-DSP licensee and the multiplex service provider, and there may be more C-DSP licences issued in a locality than there are reserved slots on the small-scale radio multiplex service. Note that a C-DSP service does not necessarily have to broadcast using reserved capacity. It can use unreserved capacity on a small-scale radio multiplex service or capacity on a local radio multiplex service, again subject to agreement with the multiplex service provider.

An application for a C-DSP licence will be accepted only once Ofcom has advertised the licence for the small-scale radio multiplex service upon which the proposed C-DSP service is intended to be provided. There is no closing-date by which an application for a C-DSP licence must be submitted (i.e. it can be submitted at any time after the licence for the relevant small-scale radio multiplex licence has been advertised).

You can find further information about how to determine if a service requires a C-DSP licence in Section 2 of the [guidance notes for applicants and licensees](#).

Provision of information

Ofcom requires complete and accurate information to assess applications. This is so that we can assess your application against statutory criteria, consider whether those involved in the body applying for a licence are 'fit and proper' to hold a licence, and determine whether their involvement with other organisations disqualifies them from participation in a licence.

It is an offence under the Broadcasting Act 1996 (as amended) to provide false information or withhold relevant information during the application process, and may be grounds for revocation of a licence subsequently granted.

Publication of information about applications and licensed services

Information provided in **Part A** of the application form will typically be published by Ofcom in our Monthly Radio Update publication the month following the submission of your application. This may take longer if the application is received late in the month. Information provided in **Part B** will not be published.

In submitting this application you agree that, should a licence be granted, Ofcom may publish contact details for the licensee (specified in Section 2 of Part B of the application form), which may include personal data, on the Ofcom website and/or in other relevant publications. If you have any questions about the information that we publish, or there are any changes to this information, you should contact the Broadcast Licensing team by email (broadcast.licensing@ofcom.org.uk).

Ofcom considers issued C-DSP licences to be public documents and copies of licences will be made available to third parties on request albeit, other than the Key Commitments which are tailored to the service, C-DSP licences are standard form documents. A brief description of the licensed service will be published on the Ofcom website, along with the Key Commitments which form part of the licence.

Ofcom publishes a [monthly radio licensing update](#) which lists new services licensed, new applications, licences revoked, licence transfers, and changes to licensed services during the past month.

Data protection

We require the information requested in this form in order to carry out our licensing duties under the Broadcasting Act 1990, Broadcasting Act 1996 and Communications Act 2003. Please see Ofcom's [General Privacy Statement](#) for further information about how Ofcom handles your personal information and your corresponding rights.

Keeping up to date with broadcasting matters

We strongly recommend that the appropriate person at the applicant body signs up to receive Ofcom's regular email updates on broadcasting matters including notification when the Broadcast and On Demand Bulletin is published.

To sign up to receive these communications, you must visit the [email updates](#) area of our website and select 'Broadcasting.'

2. Applicant's details

About this section

In this section we are asking you for details about the applicant company. This must be a body corporate which is not profit distributing.

In the first part of this section, we are asking for basic details about the applicant. These include company registration number and contact information.

In the second part of this section we are asking for details of the applicant's officers (directors or, in the case of LLPs, designated members), its shareholders and participants. Where applicable, we are also asking for details of the officers of the applicant's parent and associated companies or LLPs etc.

If any of the individuals named in your responses are known by more than one name/version of their name, all names must be provided.

Certain persons are disqualified from holding a C-DSP licence. This section asks the questions which enable us to consider this for those types of disqualification which apply specifically to bodies corporate. It also asks questions which are relevant to our assessment of the applicant's fitness and properness to hold a C-DSP licence.

Before completing this section of the form, you should read [Ofcom's guidance on the definition of 'control' of media companies](#). Throughout this section, "control" has the meaning it is given in Part I of Schedule 2 of the Broadcasting Act 1990.

The response boxes and tables should be expanded or repeated where necessary, or provided in a separate annex.

'Officerships' in this section refers to: directorships of bodies corporate, designated memberships of LLPs, or membership of a governing body of an unincorporated association (including partnerships).

4. Compliance of the service

About this section

This section asks you to describe the compliance arrangements for the proposed licensed service, i.e. the arrangements which the applicant will put in place to ensure that the content it proposes to broadcast will comply with the relevant regulatory codes and rules for programming and advertising. These include:

- The Ofcom Broadcasting Code
- The BCAP Code: the UK Code of Broadcast Advertising
- The Regulation of Premium Rate Services Order

Condition 17 of a C-DSP licence requires that you have compliance procedures in place, and this section asks that you demonstrate your ability to meet this licence condition.

Before completing this section of the form you should read Section 4 of the [C-DSP guidance notes](#), where you will also find links to the codes and rules listed above.

- 4.1 Please give details of all compliance training (including dates) the person named in response to either question 2.3 or 2.5 in Part B (i.e. the individual who holds overall responsibility for compliance of the service) has received in the relevant codes and rules (for example, those referred to in the box at the start of this section).

Our team of radio producers and our Director have over 30 years experience in delivering radio programming, starting in 1994. Our senior team have experience and understanding of the broadcasting code, and the clauses listed and the codes of conduct.

- 4.3 For each role within your compliance team please provide job title and a brief description of the functions of the role specific to ensuring compliance of the proposed service. - 4.4 How does the applicant intend to formally train staff in compliance procedures? Please include details of the compliance training that will be given to those responsible for live programming, including compliance staff, presenters and producers.

All talent and staff are onboarded with a full documentation of the station rules whilst having an in person induction. All station rules including offensive language are explained in person, whilst it's rare on the odd occasion there is anything offensive played we have a strict policy to have the track faded down and an apology issued. This is documented in a station log.

- 4.5 Will the training described in response to question 4.5 be mandatory for all staff and volunteers? If not, outline who will receive it.

All personnel will receive mandatory compliance training, and be required to sign a form agreeing they have read through and understand the Project's code of conduct and compliance with Ofcom codes and rules.

- 4.6 It is a licence requirement that a licensee must ensure that all programming on its service (broadcast at any time of the day or night) complies with Ofcom's codes and rules (e.g. Ofcom's Broadcasting Code, which sets requirements on standards to be observed in programme content for the protection of the public).

- a) Set out in detail below the systems the applicant intends to have in place to ensure it will be able to comply with the codes and rules when the service is broadcasting live content. Your response should include details of what you will do to prepare presenters and guests pre-broadcast and the process for ensuring that any non-complaint content is dealt with swiftly during the broadcast.

All of our output is monitored closely, and recorded for checks, we hold shows in on our cloud system for up to a year and can always check. We explain in advance the importance of compliance and how we must conduct ourselves in operating, any broadcaster that creates offense is brought in and spoken to, on rare occasions we will take a view to remove the broadcaster from the roster.

- b) Set out in detail below how the applicant intends to ensure that pre-recorded material will comply with Ofcom's codes and rules. Pre-recorded content could include, for example, material obtained from, or streamed from, third party sources as well as content produced by the licensee.

All pre recorded shows are listened to in advance of airing.
