About this document

On 19 September 2017, Ofcom revoked the general conditions of entitlement (the ‘general conditions’) set out in the notification published by the Director General of Telecommunications on 22 July 2003 with effect from 1 October 2018 and set revised general conditions with effect from the same date.

This is an unofficial consolidated version of the revised general conditions which incorporates, for ease of reference, all the modifications made to these conditions since September 2017 in a single document.

While every reasonable effort is made to ensure that the information provided in this document is accurate, no guarantees of the accuracy of information are made, and this document has no legal effect. Therefore, in relation to each specific amendment, you are advised to consult the relevant notifications, listed on the final page of this document, as these contain an explanation of the reasons for the decision to amend and the specific modifications that have been made.

For the avoidance of doubt, in the case of any difference between texts, the text set out in the notification of 19 September 2017 and any subsequent notification published on Ofcom’s website shall take precedence over this unofficial version of the revised general conditions.

Legal basis for the General Conditions

Schedule to the notification under section 48(1) of the Communications Act 2003

Under the regulatory regime set out in the Communications Act 2003, communications providers do not require a licence to operate in the UK, but can be made subject to conditions of general application. This approach of authorisation subject to general conditions reflects the common European regulatory framework for electronic communications services and networks. This document sets out the general conditions which all communications providers (or all communications providers of a particular description) must comply with if they wish to provide services in the UK.

Broadly, the general conditions fall into three main categories: conditions relating to network functioning requirements (Part A); numbering and other technical conditions (Part B); and consumer protection conditions (Part C).

Definitions and interpretation relating to the conditions in this Schedule

The definitions set out at the end of this Schedule have effect except in so far as the context otherwise requires.

For the purpose of interpreting the Conditions in this Schedule:

- (a) except in so far as the context otherwise requires, words or expressions shall have the meaning assigned to them in the Schedule and otherwise any word or expression shall have the same meaning as it has in the Act;
- (b) headings and titles shall be disregarded;
- (c) expressions cognate with those referred to in this Schedule shall be construed accordingly; and
- (d) the Interpretation Act 1978 shall apply as if each of the Conditions in this Schedule were an Act of Parliament.

Part A: Network functioning conditions

A1 General network access and interconnection obligations

This condition requires all providers of public electronic communications networks to negotiate interconnection agreements with other network providers on request and requires all communications providers to respect the confidentiality of information obtained in connection with network access negotiations.

Scope

A1.1 The provisions of this **Condition** apply as follows:

- (a) **Condition A1.2** applies to any person who provides a **Public Electronic Communications Network**; and
- (b) **Condition A1.3** applies to any **Communications Provider**,
and each person to whom a provision applies is a '**Regulated Provider**' for the purposes of that provision.

Obligation to negotiate interconnection

A1.2 Any **Regulated Provider** shall, to the extent requested by any other provider of a **Public Electronic Communications Network**, negotiate with that provider with a view to concluding an agreement for **Interconnection** (or an amendment to an existing agreement for **Interconnection**) within a reasonable period.

Information obtained during negotiations for network access

A1.3 Where a **Regulated Provider** acquires information from another **Communications Provider** in confidence before, during or after the process of negotiating **Network Access**, the **Regulated Provider** shall use that information solely for the purpose for which it was supplied and respect at all times the confidentiality of information transmitted or stored. Such information shall not be passed on to any other party (in particular other departments, subsidiaries or partners) for whom such information could provide a competitive advantage.

A2 Standards and specifications

This condition ensures that all communications providers adopt common technical standards by requiring them to comply with any compulsory EU standards and specifications and take account of other European and international standards and specifications.

Scope

A2.1 This **Condition** applies to all **Communications Providers**.

European standards and specifications

A2.2 **Communications Providers** must comply with any relevant compulsory standards and/or specifications listed in the Official Journal of the European Union for the provision of services, technical interfaces and/or network functions pursuant to Article 17 of the **Framework Directive** and/or Article 39 of the **EECC Directive**.

A2.3 In addition, **Communications Providers** shall take full account of:

- (a) any relevant non-compulsory standards and/or specifications published in the Official Journal of the European Union; and
- (b) in the absence of such standards and/or specifications referred to in **Condition** A2.3(a), any relevant standards and/or specifications adopted by the European Committee for Standardisation (CEN), the European Committee for Electrotechnical Standardisation (CENELEC) and the European Telecommunications Standards Institute (ETSI).

International standards and specifications

A2.4 In the absence of such standards and/or specifications referred to in **Conditions** A2.2 and A2.3, **Communications Providers** shall take full account of international standards or recommendations adopted by the International Telecommunication Union (ITU), the European Conference of Postal and Telecommunications Administrations (CEPT), the International Organisation for Standardisation (ISO) and the International Electrotechnical Committee (IEC).

A3 Availability of services and access to emergency services

This condition aims to ensure the fullest possible availability of public communications services at all times, including in the event of a disaster or catastrophic network failure, and uninterrupted access to emergency organisations. It requires providers of call services to ensure that calls can be made to emergency organisations free of charge and to make caller location information available to emergency organisations where technically feasible. It also includes specific rules relating to providers of VoIP outbound call services which aim to ensure that users of those services are aware of any potential limitations on making calls to emergency organisations and that accurate and up-to-date caller location information can be provided to the emergency organisations where possible.

Scope

A3.1 The provisions of this **Condition** apply as follows:

- (a) **Condition** A3.2 applies to any person who provides a **Voice Communications Service** and/or **Internet Access Service** and/or a **Public Electronic Communications Network** over which a **Voice Communications Service** and/or **Internet Access Service** is provided;
- (b) **Conditions** A3.3 and A3.6(c) apply to any provider of a **VoIP Outbound Call Service** to **Consumers, Microenterprise or Small Enterprise Customers** or **Not-For-Profit Customers** (such customers being ‘**Relevant Customers**’ for the purposes of these provisions); and
- (c) **Conditions** A3.4, A3.5 and A3.6(a), (b) and (d) apply to any **Communications Provider** who provides **End-Users** with a **Number-based Interpersonal Communications Service**, or provides access to such a service by means of a **Pay Telephone**, for originating calls to a number or numbers in the **National Telephone Numbering Plan** and/or in an international numbering plan, excluding any **Click to Call Service**,
and each person to whom a provision applies is a ‘**Regulated Provider**’ for the purposes of that provision.

Availability of services, including access to emergency services¹

A3.2 **Regulated Providers** must take all necessary measures to ensure:

- (a) the fullest possible availability of **Voice Communications Services** and **Internet Access Services** provided over **Public Electronic Communications Networks** in the event of catastrophic network breakdown or in cases of force majeure; and
- (b) uninterrupted access to **Emergency Organisations** as part of any **Voice Communications Services** offered.²

A3.3 **Regulated Providers** must inform their **Relevant Customers** in plain English and in an easily accessible manner that access to **Emergency Organisations** using **VoIP Outbound Call Services** may cease if there is a power cut or power failure, or a failure of the internet

¹ See also “[General statement of policy under section 105Y of the Communications Act 2003](#)”

connection on which the service relies. This information must be provided during the sales process, within the terms and conditions of use, and in any user guide issued by the **Regulated Provider**.

Emergency call numbers (“112” and “999”)³

- A3.4 **Regulated Providers** must ensure that all **End-Users** can access **Emergency Organisations** by using the emergency call numbers “112” and “999” at no charge and, in the case of a **Pay Telephone**, without having to use coins or cards. In the case of **Regulated Providers** providing **Mobile Communications Services**, this obligation also applies to access by all **End-Users** to **Emergency Organisations** by using **eCalls**.

Caller location information

- A3.5 **Regulated Providers** shall, to the extent technically feasible, make accurate and reliable **Caller Location Information** available for all calls to the emergency call numbers “112” and “999”, at no charge to **End-Users** and the **Emergency Organisations** handling those calls, at the time the call is answered by those organisations.
- A3.6 In order to make accurate and reliable **Caller Location Information** available to the **Emergency Organisations** handling the calls to “112” and “999”, a **Regulated Provider** must comply with the following requirements:
- (a) where it provides an **Electronic Communications Service** at a fixed location, the **Caller Location Information** must, at least, accurately reflect the fixed location of the **End-User’s** terminal equipment including the full postal address;
 - (b) where it provides a **Mobile Communications Service**, the **Caller Location Information** must include, at least, the **Cell Identification** of the cell from which the call is being made and, where available, an indication of the radius of coverage of the cell. In exceptional circumstances, where the **Cell Identification** is temporarily unavailable for technical reasons, the **Caller Location Information** must include the **Zone Code**; and
 - (c) where it provides a **VoIP Outbound Call Service**:
 - (i) it must, where its **VoIP Outbound Call Service** is to be used principally at a single fixed location, recommend its **Relevant Customers** to register with it the address of the place where the **VoIP Outbound Call Service** is to be used prior to its activation and update that address information if there is any change; and
 - (ii) where it has a reasonable expectation that, or has been informed that, its **VoIP Outbound Call Service** is to be accessed from multiple locations, it must recommend that its **Relevant Customers** register and update the location information associated with it, whenever accessing the **VoIP Outbound Call Service** from a new location; and
 - (d) in all circumstances where available, a **Regulated Provider** must provide handset-derived **Caller Location Information**.

³ See also Conditions C5.8 and C5.9 (“Relay service”) and Condition C5.10 (“Mobile SMS access to emergency organisations”), which aim to ensure that people with hearing or speech impairments can contact “112” and “999” by sending a text message, or by dialing “18000” from terminal equipment which is compatible with text relay (including textphones, Braille readers, personal computers and mobile telephones).

A4 Emergency planning

This condition requires all communications providers who provide voice communications services or a public electronic communications network over which these services are provided, to agree arrangements with emergency organisations and other public authorities to ensure the provision or rapid restoration of networks and services in the event of a disaster.

Scope

- A4.1 This **Condition** applies to any **Communications Provider** who provides a **Voice Communications Service** and/or a **Public Electronic Communications Network** over which a **Voice Communications Service** is provided, each of whom is a '**Regulated Provider**' for the purposes of this **Condition**.

Provision or restoration of services

- A4.2 Subject to **Condition** A4.4, **Regulated Providers** shall, on the request of and in consultation with:
- (a) the authorities responsible for **Emergency Organisations**; and
 - (b) such departments of central and local government as **Ofcom** may from time to time direct for the purposes of this **Condition**⁴,
- make arrangements for the provision or rapid restoration of such communications services as are practicable and may reasonably be required in disasters (including in any major incident having a significant effect on the general public and in any incident of contamination involving radioactive substances or other toxic materials).
- A4.3 Subject to **Condition** A4.4, **Regulated Providers** shall, on request by any person as is designated for the purpose in any such arrangements, implement those arrangements in so far as is reasonable and practicable to do so.
- A4.4 Nothing in this **Condition** precludes **Regulated Providers** from:
- (a) recovering the costs incurred in making or implementing any such arrangements; or
 - (b) making the implementation of any such arrangements conditional upon being indemnified by the person for whom the arrangements are to be implemented for all costs incurred as a consequence of the implementation.

⁴ See [Ofcom's emergency planning direction](#)

A5 Must carry obligations

This condition provides Ofcom with a power to direct that broadcasting network providers must carry certain public service broadcasting (PSB) television channels. This list of PSB channels is set out in the Communications Act 2003 and is subject to revision by order of the Secretary of State.

Scope

- A5.1 This **Condition** applies to any person who provides an **Appropriate Network**, each of whom is a '**Regulated Provider**' for the purposes of this **Condition**.

Must Carry Obligations

- A5.2 **Regulated Providers** shall, on a direction of **Ofcom** made from time to time for the purposes of this **Condition**, broadcast or otherwise transmit any service specified in that direction which is also set out in section 64(3) of the **Act** as modified from time to time by the Secretary of State pursuant to section 64 of the **Act**.
- A5.3 **Regulated Providers** shall comply with any order made by the Secretary of State from time to time under section 64(11) of the **Act** with respect to the terms on which such services must be broadcast or otherwise transmitted.

Part B: Numbering and technical conditions

B1 Allocation, adoption and use of telephone numbers

This condition sets out the terms under which communications providers may apply for, be allocated and adopt telephone numbers so as to ensure their effective and efficient use.

Scope

B1.1 This **Condition** applies to all **Communications Providers**.

General prohibitions on adoption and use

- B1.2 A **Communications Provider** shall not **Adopt Telephone Numbers** from Part A of the **National Telephone Numbering Plan**⁵ unless:
- (a) the **Telephone Numbers** have been **Allocated** to the **Communications Provider**; or
 - (b) subject to General Condition B1.5A, the **Communications Provider** has been authorised (either directly or indirectly) to **Adopt** those **Telephone Numbers** by the person **Allocated** those **Telephone Numbers**.
- B1.3 The **Communications Provider** may only use a **Telephone Number** from Part A of the **National Telephone Numbering Plan** where that **Telephone Number** has been **Allocated** to a person, unless the use in question is for the purposes of indicating that the **Telephone Number** has not been **Allocated**.
- B1.4 The **Communications Provider** may only use (or, where specified, **Adopt**) a **Telephone Number** listed in Part C of the **National Telephone Numbering Plan** where such use or **Adoption** is in accordance with the designation attributed to that **Telephone Number**.

Requirements in connection with the adoption of telephone numbers

- B1.5 In providing an **Electronic Communications Network** or an **Electronic Communications Service**, the **Communications Provider** shall comply with:
- (a) all applicable restrictions and requirements as are set out in the **National Telephone Numbering Plan**; and
 - (b) any restrictions or requirements set out in a notification issued by **Ofcom** to that **Communications Provider** recording the **Allocation** of specific **Telephone Numbers** to it.
- B1.5A The **Communications Provider** shall comply with all applicable restrictions as are set out in the **National Telephone Numbering Plan** in relation to the **Adoption** or use of **Telephone Numbers** as **Global Titles**.⁶

⁵ See the [National Telephone Numbering Plan](#)

⁶ Set out in B3.8 of the National Telephone Numbering Plan

- B1.6 Where **Telephone Numbers** have been **Allocated** to the **Communications Provider**, that provider shall secure that such **Telephone Numbers** are **Adopted** or otherwise used effectively and efficiently.
- B1.7 The **Communications Provider** shall not unduly discriminate against another **Communications Provider** in relation to its **Adoption** or use of **Telephone Numbers** for purposes connected with the use by that other **Communications Provider**, or its **Customers**, of any **Electronic Communications Network** or **Electronic Communications Service**.
- B1.8 The **Communications Provider** shall take all reasonably practicable steps to secure that its **Customers**, in using **Telephone Numbers**, comply (where applicable) with the provisions of this **Condition**, the provisions of the **National Telephone Numbering Plan** and the **Non-provider Numbering Condition**.⁷

Requirements in connection with the transfer of use of allocated telephone numbers

- B1.9 The **Communications Provider** shall not transfer use of **Telephone Numbers** from the **National Telephone Numbering Plan** unless:
- (a) the **Telephone Numbers** have been **Allocated** to the **Communications Provider**; or the **Communications Provider** has been authorised (either directly or indirectly) to **Adopt** those **Telephone Numbers** by the person **Allocated** those **Telephone Numbers**;
 - (b) the **Telephone Numbers** are used in accordance with the **National Telephone Numbering Plan**; and
 - (c) the **Telephone Numbers** are **Adopted** or otherwise used effectively and efficiently.

Application for allocation or reservation of telephone numbers

- B1.10 When applying for an **Allocation** or reservation of **Telephone Numbers**, the **Communications Provider** shall:
- (a) use **Ofcom's** online number management system or, if that system is unavailable, the application form made available on the **Ofcom** website from time to time;
 - (b) provide such information as is required by such system or application form; and
 - (c) provide to **Ofcom**, on request, any other information considered by **Ofcom** to be relevant to the application, and the supply of which does not place an undue burden on the **Communications Provider**.
- B1.11 **Ofcom** will determine, taking into account the provisions of the **National Telephone Numbering Plan**, any application for **Telephone Numbers** by the end of the period of three weeks after the date of the receipt by it of the completed application form. Where **Ofcom** has required any additional information under **Condition B1.10(c)** in relation to any application, **Ofcom** will determine the application by the end of the period of three weeks after the date of the receipt by it of that additional information.

⁷ See [Ofcom's non-provider numbering condition](#)

Charging for specified geographic numbers

- B1.12 The **Communications Provider** shall pay to **Ofcom** any applicable **Annual Number Charge** within 14 days of receipt of an invoice from **Ofcom**.
- B1.13 The **Annual Number Charge** will be billed annually in arrears following the end of each **Charging Year**.
- B1.14 The **Annual Number Charge** for a **Communications Provider** shall be:
- (a) the charges applicable to that **Communications Provider** calculated in accordance with **Condition B1.15**; less
 - (b) any reduction applicable to that **Communications Provider** calculated in accordance with **Condition B1.16**.
- B1.15 In respect of each **Specified Geographic Number** the **Communications Provider** must pay £0.1/365 for every day within the **Charging Year** for which that **Specified Geographic Number** is **Allocated** to it. Such amounts are payable irrespective of whether or not a **Specified Geographic Number** has been **Adopted** or is in use.
- B1.16 If relevant, the amount of any reduction for a **Communications Provider** in respect of a **Charging Year** shall be:
- (a) (the total number of the **Communications Provider's Ported Specified Geographic Numbers**) x £0.1 ÷ (the **Average Industry Utilisation Rate**); plus
 - (b) (the total number of the **Communications Provider's WLR Specified Geographic Numbers**) x £0.1 ÷ (the **BT Average Utilisation Rate**); plus
 - (c) (the total number of the **Communications Provider's Public Payphone Specified Geographic Numbers**) x £0.1 ÷ (the **Communications Provider Average Utilisation Rate**).
- B1.17 If any reduction calculated pursuant to **Condition B1.16** exceeds the charges applicable to that **Communications Provider** calculated in accordance with **Condition B1.15**, the **Annual Number Charge** shall be zero.

Withdrawal of a number allocation

- B1.18 **Ofcom** may withdraw an **Allocation of Telephone Numbers** from a **Communications Provider** where:
- (a) the **Communications Provider** has not **Adopted** those **Telephone Numbers** within six months, or such other period as **Ofcom** may from time to time direct, from the date on which the **Telephone Numbers** were **Allocated**;
 - (b) in relation to an **Allocation** of a series of **Telephone Numbers**, the **Communications Provider** has not **Adopted** those **Telephone Numbers** to any significant extent within six months, or such other period as **Ofcom** may from time to time direct, from the date on which the series of **Telephone Numbers** was **Allocated**;
 - (c) the **Communications Provider** is unable to demonstrate to **Ofcom's** reasonable satisfaction either:
 - (i) that those **Telephone Numbers** are assigned to a [Subscriber](#) (or [Subscribers](#)); or
 - (ii) if those **Telephone Numbers** are not so assigned, that they were so assigned within the preceding twelve months, and

the withdrawal is made for the purpose of securing that what appears to **Ofcom** to be the best and most efficient use is made of the numbers and other data that are appropriate for use as **Telephone Numbers**;

- (d) the **Communications Provider** has used a significant proportion of those **Telephone Numbers**, or has used such **Allocation** to a significant extent, inconsistently with this **Condition**, or to engage in fraud or misuse; or
- (e) **Ofcom** has advised the **Communications Provider** in writing that a significant proportion of those **Telephone Numbers** has been used, or that such **Allocation** has been used to a significant extent, to cause harm or a nuisance, and the **Communications Provider** has failed to take adequate steps to prevent such harm or nuisance.

Requirements in connection with the use of telephone numbers

B1.19 When providing an **Electronic Communications Service** by means of an **Unbundled Tariff Number**, the **Communications Provider** must comply with the tariff principles set out in **Conditions B1.21 – B1.27** and any applicable maximum price specified in the **National Telephone Numbering Plan**.

B1.20 **Condition B1.19** does not apply in respect of:

- (a) calls to an **Unbundled Tariff Number** from a **Public Pay Telephone**; and
- (b) calls originating outside of the United Kingdom to an **Unbundled Tariff Number**.

B1.21 The retail price for a call to an **Unbundled Tariff Number** which is charged to a **Consumer** is the sum of:

- (a) the **Access Charge Element**; and
- (b) the **Service Charge Element**, subject to any special offers, discounts or call bundling arrangements which the **Communications Provider** offers to that **Consumer**.

B1.22 The **Access Charge** must:

- (a) not vary within a **Consumer's** tariff package by reference to:
 - (i) the **Unbundled Tariff Number** that is called; or
 - (ii) the time or day of the call; and
- (b) be set at a pence per minute rate.

B1.23 The **Service Charge**:

- (a) must not vary according to the **Communications Provider** that retails or originates the call;
- (b) must not vary by the time or day of the call;
- (c) must be no greater than any applicable maximum price specified in the **National Telephone Numbering Plan**;
- (d) may be set at a pence per minute, a pence per call rate, or a rate which combines a pence per minute rate and a pence per call rate; and
- (e) must not require another **Communications Provider** to have systems able to accommodate more **Price Points** than are required under **Condition B1.28**, unless that **Communications Provider** agrees otherwise.

B1.24 For the purpose of calculating an **Access Charge Element**, the **Communications Provider**:

- (a) may round up the length of the call to 1 minute for a call lasting less than 1 minute; and

- (b) for a call lasting more than 1 minute but less than a whole number of minutes, must treat that call in accordance with the rounding principles it would apply to a geographic call of an equivalent length for the purpose of billing a **Consumer**.
- B1.25 For the purpose of calculating the **Service Charge Element** where the **Service Charge** comprises or includes a pence per minute rate, the **Communications Provider** must round up the length of the call to the next nearest whole second for a call lasting less than a whole number of seconds (so that, for example, a call lasting 3 minutes 14.5 seconds would be charged in respect of the **Service Charge Element**, at the applicable **Service Charge** multiplied by 3.25).
- B1.26 **Condition B1.27** applies if both the following conditions in respect of a call to an **Unbundled Tariff Number** are satisfied:
- (a) the **Consumer** has purchased a bundle of inclusive call minutes or inclusive calls from the **Communications Provider**, which includes call minutes (or calls) to one or more **Unbundled Tariff Numbers**; and
 - (b) the call is to an **Unbundled Tariff Number** which counts towards remaining minutes (or calls) in the bundle of inclusive minutes (or calls) purchased by the **Consumer**.
- B1.27 Where this **Condition** applies, the **Access Charge Element** shall be deemed to be zero.
- B1.28 For the purpose of calculating and billing the **Service Charge Element** of the retail price for calls to **Unbundled Tariff Numbers**, the **Communications Provider** must ensure that it has systems able to accommodate up to one hundred (100) different **Price Points**.
- B1.29 In relation to the obligation under **Condition B1.28**, the **Price Points** accommodated by the systems of the **Communications Provider** must:
- (a) reflect on a fair and reasonable basis the rates proposed to the **Communications Provider** by other providers in respect of their **Service Charges**, taking account of the volume and range of such proposals; and
 - (b) be set in increments of no less than £0.01.

B2 Directory information

This condition requires all communications providers to whom telephone numbers are allocated to pass on the directory information of their subscribers to other persons so as to ensure that a comprehensive directory database can be compiled from which directory products and services can be provided. It also requires directories to be updated at least once a year and provided to subscribers on request.

Scope

- B2.1 This **Condition** applies to all providers of **Number-based Interpersonal Communications Services** which assign **Telephone Numbers** to **Subscribers**, each of whom is a '**Regulated Provider**' for the purposes of this **Condition**.

Provision of directory information

- B2.2 In order to facilitate the provision of publicly available **Directories** and **Directory Enquiry Facilities**, **Regulated Providers** must meet all reasonable requests to make **Directory Information** available on terms which are fair, objective, cost-oriented and non-discriminatory, and in a format which is agreed between the **Regulated Provider** and the person requesting the information.
- B2.3 **Regulated Providers** must supply each of their **Subscribers**, on request, with a **Directory** or **Directories** containing **Directory Information** on all **Subscribers** who have been assigned **Telephone Numbers** by any **Regulated Provider** for any specified area in the United Kingdom. Any **Directories** supplied shall not contain **Directory Information** for any **Subscribers** who have exercised their right to have their **Directory Information** excluded from **Directories**.
- B2.4 **Regulated Providers** must ensure that any **Directories** they produce are updated at least once a year.
- B2.5 **Ofcom** may from time to time direct that a **Directory** is available in a particular form.

Charges

- B2.6 **Regulated Providers** may charge:
- (a) **End-Users** a fee for making **Directories** available to them; and
 - (b) their **Subscribers** a fee for the inclusion of their **Directory Information** in a **Directory** or **Directory Enquiry Facility**.
- Any such fees (of either type) must be reasonable.

Data protection

- B2.7 This **Condition** applies subject to the requirements of **Relevant Data Protection Legislation**.

B3 Obligations to enable number portability

This condition sets out the rules which communications providers must follow when working with each other in order to allow end-users to take their landline and/or mobile number(s) with them when changing provider (porting of numbers). It is a complement to Condition C7 which aims to ensure that end-users are sufficiently protected and informed during the process of changing providers and porting their numbers.

Scope

- B3.1 This **Condition** applies to any person who provides:
- (a) an **Electronic Communications Network**; or
 - (b) an **Electronic Communications Service** to a **Customer** with a number or numbers from the **National Telephone Numbering Plan**
- and for the purposes of this **Condition**, any such person is a '**Regulated Provider**'.
- B3.2 The **Regulated Provider** shall, pursuant to a request from another **Regulated Provider**, provide **Portability** as soon as is reasonably practicable and on reasonable terms. Any charges for the provision of such **Portability** shall be made in accordance with the following principles:
- (a) subject always to the requirement of reasonableness, charges shall be cost oriented. In particular, charges shall be based on the incremental costs of providing **Portability** unless:
 - (i) the **Donor Provider** and the **Recipient Provider** have agreed another basis for the charges; or
 - (ii) **Ofcom** has directed that another basis for charges should be used;
 - (b) the **Donor Provider** shall make no charge in relation to **Porting System Set-Up Costs** or **Additional Conveyance Costs**;
 - (c) in respect of **Portability** involving **Mobile Numbers**, the **Donor Provider** shall make no charge or annual fee for ongoing costs relating to registration of a ported **Telephone Number** or a **Customer**; and
 - (d) charges levied by the **Donor Provider** shall be based on the reasonable costs incurred by it in providing **Portability** with respect to each **Telephone Number**.
- B3.3 Where the **Regulated Provider** provides **Portability** in accordance with **Condition** B3.2:
- (a) the **Recipient Provider**; and
 - (b) the **Portability Transit Provider**,
- shall, as appropriate, provide **Portability** on reasonable terms.
- B3.4 **Communications Providers** whose **Electronic Communications Networks** are used by either the **Donor Provider** or the **Recipient Provider**, or both, shall ensure that there is no loss of service that would delay **Number Portability** or **Portability**.

12. The **Regulated Provider** must immediately issue an **ADR Letter** to the **Complainant** if the **Complaint** remains unresolved after 8 weeks have passed since the date on which the **Complaint** was first received, unless the **Regulated Provider** has already sent an **ADR Letter** in accordance with paragraph 11 above.

 - (c) it is reasonable for the **Regulated Provider** to consider the **Complaint** to be frivolous or vexatious.
15. A **Complaint** has been resolved where:
- (a) the **Complainant** has expressly agreed that the **Complaint** has been resolved to the **Complainant's** satisfaction;
 - (b) it is reasonable for the **Regulated Provider** to conclude that the **Complaint** has been resolved to the **Complainant's** satisfaction because:

 - (ii) the **Complainant** has not come back to the **Regulated Provider** within 28 days to say that they consider the **Complaint** remains unresolved (see paragraph 9(a)).

C5 Measures to meet the needs of vulnerable consumers and end-users with disabilities

This condition aims to ensure that communications providers give sufficient consideration to the particular needs of people with disabilities and people whose circumstances may make them vulnerable. It also aims to ensure that people with disabilities can obtain comparable access to public electronic communications services to that of non-disabled people and that their access to these services when they have a genuine need is protected.

Scope

C5.1 The provisions of this **Condition** apply as follows:

- (a) **Conditions** C5.2 to C5.10 and C5.13 to C5.18 apply to providers of **Public Electronic Communications Services**; and
- (b) **Conditions** C5.11 and C5.12 apply to any person who provides:
 - (i) **Internet Access Services to End-Users**; or
 - (ii) **Number-based Interpersonal Communications Services**, where it is technically feasible to provide an **Emergency Video Relay Service to End-Users**;

each person to whom a provision applies is a '**Regulated Provider**' for the purposes of that provision.

Policy for consumers whose circumstances may make them vulnerable

- C5.2 **Regulated Providers** must establish, publish and comply with clear and effective policies and procedures for the fair and appropriate treatment of **Consumers** whose circumstances may make them vulnerable.
- C5.3 Such policies and procedures must include, as a minimum:
- (a) practices for ensuring the fair and appropriate treatment of **Consumers** who the **Regulated Provider** has been informed or should otherwise reasonably be aware may be vulnerable due to circumstances such as age, physical or learning disability, physical or mental illness, low literacy, communications difficulties or changes in circumstances such as bereavement;
 - (b) how information about the needs of **Consumers** who the **Regulated Provider** has been informed or should otherwise reasonably be aware may be vulnerable will be recorded and the different channels by which these **Consumers** will be able to make contact with, and receive information from, the **Regulated Provider**; and
 - (c) how the impact and effectiveness of the policies and procedures are monitored and evaluated.
- C5.4 **Regulated Providers** must provide to **Ofcom**, on request, any information considered by **Ofcom** to be necessary to demonstrate compliance with this **Condition**.
- C5.5 **Regulated Providers** must ensure that all staff are made aware of the policies and procedures and appropriately trained, including (if applicable) on how to refer **Consumers** to specialist teams or members of staff who have received additional training.

Measures for end-users with disabilities

- C5.6 **Regulated Providers** must take the measures needed to meet the needs of **End-Users** with disabilities set out in **Conditions** C5.7 to C5.16 and take all reasonable steps to ensure that such measures are widely publicised, taking into consideration the need to disseminate information in appropriate formats through appropriate channels for **End-Users** with disabilities.¹⁴

Access to directory information

- C5.7 **Regulated Providers** must ensure that any **End-User** of the **Number-based Interpersonal Communications Services** it provides who is unable to easily use a printed **Directory** due to visual impairment or other disabilities, can access, free of charge, **Directory Information** and **Directory Enquiry Facilities** in a form which is appropriate to meet their needs. **Regulated Providers** must ensure that such **Directory Enquiry Facilities** are capable of connecting such an **End-User** to a requested **Telephone Number** at the request of that **End-User**.

- C5.9 In providing access to **Relay Services** under **Condition** C5.8, **Regulated Providers** must comply with the following requirements:
- (a) any charge for the conveyance of messages to which a **Relay Service** applies must not exceed the equivalent price as if that conveyance had been made directly between the caller and the called person without use of a **Relay Service**;
 - (b) in making the charges set out in **Condition** C5.9(a), **Regulated Providers** must apply a special tariff scheme designed to compensate **Subscribers** for the additional time taken by **End-Users** with disabilities to make telephone calls using a **Relay Service** where, because of their disabilities, those **End-Users** need to make calls using a **Relay Service**;
 - (c) **Regulated Providers** must ensure measures are taken to protect the confidentiality of communications between **End-Users** of the **Relay Service**;

Data protection

C5.18 This **Condition** applies subject to the requirements of **Relevant Data Protection Legislation**.

C6 Calling line identification facilities

This condition requires communications providers to provide calling line identification facilities by default wherever technically feasible and economically viable, so that call recipients can identify the person calling them and choose whether or not to accept the call.

To assist with the identification of callers and reduce the incidence of nuisance calls, all communications providers should ensure that the CLI Data associated with a call at the network level and/or presented to a call recipient includes a valid, dialable number which uniquely identifies the calling party, so that the call recipient can make a return call to that person.

Scope

- C6.1 This **Condition** applies to all providers of **Number-based Interpersonal Communications Services** and **Public Electronic Communications Networks** over which **Number-based Interpersonal Communications Services** are provided, each of whom is a '**Regulated Provider**' for the purposes of this **Condition**.

Provision of calling line identification facilities¹⁶

- C6.2 **Regulated Providers** must provide **Calling Line Identification Facilities**, and enable them by default, unless they can demonstrate that it is not technically feasible or economically viable to do so.
- C6.3 **Regulated Providers** must inform **Subscribers** if **Calling Line Identification Facilities** are not available on the service they are providing to those **Subscribers**.
- C6.4 When providing **Calling Line Identification Facilities**, **Regulated Providers** must:
- (a) ensure, so far as technically feasible, that any **CLI Data** provided with and/or associated with a call includes a valid, dialable **Telephone Number** which uniquely identifies the caller; and
 - (b) respect the privacy choices of **End-Users**.
- C6.5 **Regulated Providers** must not charge **Subscribers** any additional or separate fee for access to or use of standard **Calling Line Identification Facilities**.

CLI that is invalid, non-dialable or does not uniquely identify the caller

- C6.6 Where technically feasible, **Regulated Providers** must:
- (a) take all reasonable steps to identify calls, other than calls to **Emergency Organisations**, in relation to which the **CLI Data** provided is invalid, does not uniquely identify the caller, or does not contain a Telephone Number that is dialable; and
 - (b) prevent those calls from being connected to the called party, where such calls are identified.

Data protection

- C6.7 This **Condition** applies subject to the requirements of **Relevant Data Protection Legislation**.
