Overview

This document sets out the titles of programmes that each public service broadcaster (“PSB”) – the BBC, ITV, Channel 4 and Channel 5 – reported as ‘Made Outside London’ productions broadcast during 2023. For each entry in the programme titles register, the following is listed:

- The nation or region outside of the M25 in which the production qualified as being made.
- The criteria which the production met to qualify as a regional production, and the nation or region in which each criterion was met.
- The production company which produced the title, where the production was made by an external production company. Where this column is blank, the content was made in-house by the broadcaster.
- The number of episodes of each title that qualified as regional.

The Made Outside London programme titles register and further information about the PSBs’ delivery against their regional production quotas are also available as interactive data in our [PSB Annual Compliance Report](#). The interactive version enables users to explore trend data and filter productions by which Made Outside London criteria they have met.

More information about [regional production and programming](#) is available on the Ofcom website.

The Media Act

The Media Act, which received Royal Assent in May 2024, represents the first major update to media legislation for 20 years, and includes within it changes to the scope and format of regional production quotas.

Ofcom is currently in the process of putting the Media Act into practice, and we initially laid out our [roadmap to regulation](#) in February 2024, prior to the Media Act receiving Royal Assent.

The quota performance in this report reflects those quotas in force under the Communications Act 2003, so does not reflect any changes that will be introduced by the Media Act.

Relicensing of Channel 4

The Channel 4 licence will expire at the end of 2024. We [consulted](#) on proposals for a new licence in December 2023. We set out that our aim was to strike a balance between allowing C4C greater flexibility in the future to develop its content and distribution strategy in support of its digital transformation, while continuing to secure its investment in distinctive UK content and the delivery of the core elements of its linear output on Channel 4, including its crucial role in supporting the creative economy outside London. Having reflected on feedback to this consultation we have decided that it is now appropriate to propose to increase the requirements on Channel 4’s production outside of England. We are [reconsulting](#) currently on increasing the hours and expenditure quotas from 9% to 12%.

Regional production requirements

The Communications Act 2003 (Sections 286 and 288) and the BBC Agreement require that a suitable proportion of programmes are made outside the M25. Each PSB must meet the quotas for regional productions specified in its licence. Ofcom’s [guidance](#) explains that only first-run originated programmes that qualify as regional productions may count towards these quotas.

The current quotas are set at the following levels for the PSBs.

| Regional production quotas | BBC | Channel 3 services (ITV) | Channel 4 | Channel 5 |
|---|---|--------------------------|--|-----------|
| Proportion & range of programmes by spend and hours made outside the M25 | 50% | 35% | 35% | 10% |
| Out of England (nations) spend/hours | 8% spend/hours in Scotland 5% spend/hours in Wales 3% spend/hours in Northern Ireland | n/a | 9% spend out of England 9% hours out of England | n/a |
| English regional spend/hours | 30% spend/hours in English regions | n/a | n/a | n/a |

To qualify as a regional production, at least two of the following three criteria must be met:

- The production company must have a substantive business and production base in the UK outside the M25¹;
- At least 70% of the production budget (excluding some specific costs²) must be spent in the UK outside the M25; and
- At least 50% of the production talent by cost must have their usual place of employment in the UK outside the M25.

Each regional production must be assigned to either Northern Ireland, Scotland, Wales, one of three English macro-regions, or – if the substantive base criteria is not met, and the production budget and

¹ A base will be taken to be substantive if it is the usual place of employment of executives managing the regional business, of senior personnel involved in the production in question, and of senior personnel involved in seeking programme commissions.

² On-screen talent, archive material, sports rights, competition prize money and copyright costs.

production talent criteria were achieved, but were not met in a single macro-region – be labelled as ‘multi-English region’, ‘multi-nation outside England’ or ‘other’, as relevant.

Further detail on the [current regional production definitions](#) is available on our website.

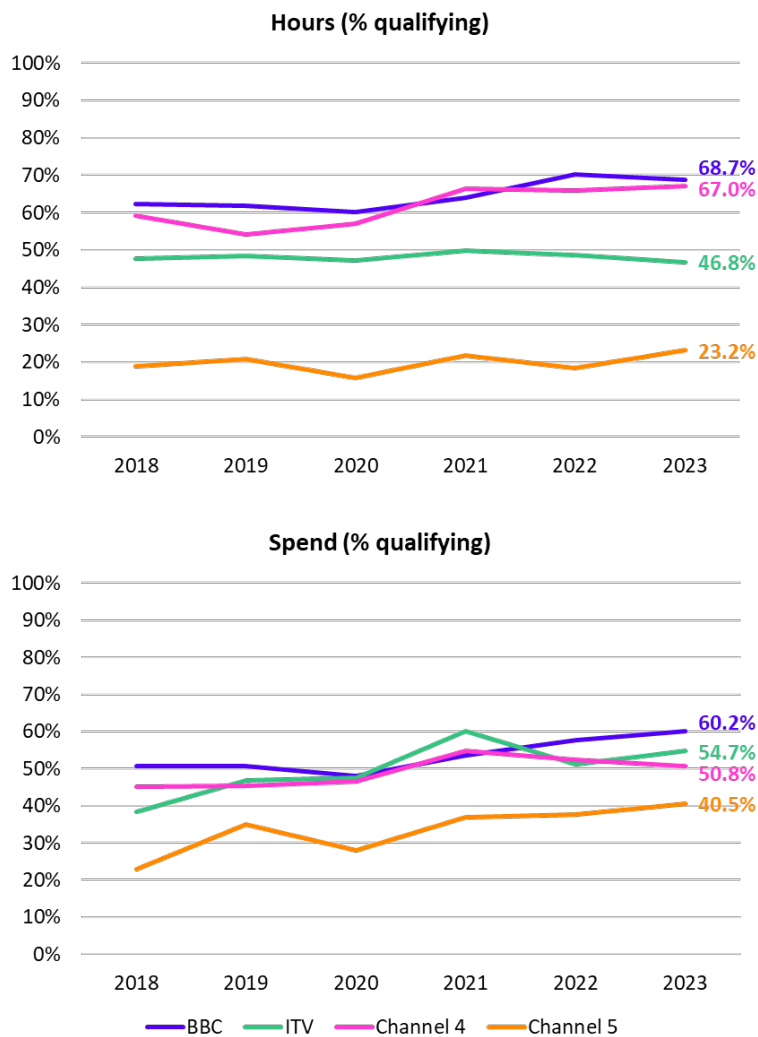

Ofcom reviewed the regional production and regional programming guidance for broadcasters. In June 2019, we published [updated guidance](#) for the PSBs; this came into effect for programmes broadcast from January 2021. We also published a [statement](#) concluding Ofcom’s review of the guidance.

Regional production in 2023: at a glance

The Made Outside London programme titles register sets out the titles of programmes broadcast during 2023 that the BBC, ITV, Channel 4 and Channel 5 reported as ‘Made Outside London’ productions. The qualifying hours and spend of these titles contribute to the regional production quota outturn we set out below and in our [PSB Annual Compliance Reports](#).

PSBs’ performance against regional production quotas in 2023

All the PSBs exceeded their overall regional production quotas in 2023. Each individual broadcaster’s performance is shown below. The BBC must meet a quota of 50% for hours and spend, ITV and Channel 4 have quotas of 35% for both, and Channel 5 has a quota of 10% for hours and spend.

Source: Ofcom/broadcasters.

The BBC and Channel 4 also met or exceeded their Nations specific quotas. The BBC allocated 41.8% of hours and 38.2% of spend to English regions (quota: 30%), 17.3% of hours and 9.0% of spend to Scotland (quota: 8%), 6.4% of hours and 7.9% of spend to Wales (quota: 5%), and 3.0% of hours and 4.2% of spend to Northern Ireland (quota: 3%). Channel 4 allocated 10.6% of hours and 10.9% of spend to out of England productions (quota: 9%).³

Made Outside London title allocations

There were 765 separate entries in the Made Outside London programme titles register in 2023. Of these, 70% (532) were allocated overall to English regions outside London, 15% (114) to Scotland, 10% (74) to Wales, and 5% (36) to Northern Ireland. A further 1% (9) entries were for programmes made across multiple nations and English regions and therefore designated as ‘Other’.

The Register below lists all of the titles submitted by the PSBs as being ‘Made Outside London’ in 2023. We also provide an [interactive version](#), which enables users to explore trend data and filter productions by which Made Outside London criteria they have met. We periodically conduct spot-checks on the MOL register, which we undertake as set out in the [Statement: Review of Regional TV Production and Programming Guidance \(2019\)](#). On occasion, these spot-checks might result in changes to the register. In a small number of cases, PSBs may submit provisional data, and so it may be necessary to update the register at a later date. Any change will be denoted by a revised publication date.
