Made Outside London programme titles register: 2025	8

Overview

This document sets out the titles of programmes that each public service broadcaster (“PSB”) – the BBC, ITV, Channel 4 and Channel 5 – reported as ‘Made Outside London’ (also known as ‘regional’) productions broadcast during 2025.

For each entry in the programme titles register, the following is listed:

- The nation or region outside of the M25 to which the production was allocated.
- The criteria which the production met to qualify as a regional production, and the nation or region in which each criterion was met.
- The production company which produced the title, where the production was made by an external production company. Where this column is blank, the content was made in-house by the broadcaster.
- The number of episodes of each title that qualified as regional.

The Made Outside London programme titles register and further information about the PSBs’ delivery against their regional production quotas are also available as interactive data in our [PSB Annual Compliance Report](#). The interactive version enables users to explore trend data and filter productions by which Made Outside London criteria they have met.

More information about [regional TV production and programming](#) is available on Ofcom’s website.

The Media Act

The Media Act 2024, which received Royal Assent on 24 May 2024, represented the first major update to media legislation for 20 years. It includes within it changes to the scope and format of regional production quotas. Following a consultation, we published a [statement](#) on 16 October 2025 outlining our approach for implementing changes to the regulatory framework, which include:

- Converting quota proportions to absolute hours and spend to ensure they are clear and readily applied to on-demand services;
- The levels of original production and regional production quotas; and
- Implementing the revised quota levels for independent productions, which the Government published in the [Broadcasting \(Independent Productions\) Regulations 2025](#).

These changes relate to Channels 3, 4 and 5, S4C and, where relevant, the BBC.

Changes introduced by the Media Act 2024 also required us to publish [guidance on which programmes can count towards the original productions quota](#), and to amend our [guidance on regional productions](#).

The quota performances in this report reflect the quotas in force under the Communications Act 2003 before it was amended by the Media Act 2024. The new quotas described above were introduced from 1 January 2026 and will be reflected in next year’s report.

Regional production requirements

The Communications Act 2003 (Sections 286 and 288) and the BBC Agreement require that a suitable proportion of programmes are made outside the M25. Each PSB must meet the quotas for regional productions specified in its licence. Ofcom’s [guidance](#) explains that only first-run originated programmes that qualify as regional productions may count towards these quotas. This process will change from 1 January 2026 (please see the ‘Overview’ section above).

The current quotas are set at the following levels for the PSBs:

Regional production quotas	BBC	Channel 3 services (ITV)	Channel 4	Channel 5
Proportion & range of programmes by spend and hours made outside the M25	50%	35%	35%	10%
Out of England (nations) spend/hours	8% spend/hours in Scotland 5% spend/hours in Wales 3% spend/hours in Northern Ireland	n/a	9% ¹ spend/hours out of England	n/a
English regional spend/hours	30% spend/hours in English regions	n/a	n/a	n/a

To qualify as a regional production, at least two of the following three criteria must be met:

- The production company must have a substantive business and production base in the UK outside the M25² (‘substantive base’);
- At least 70% of the production budget (excluding some specific costs³) must be spent in the UK outside the M25 (‘production spend’); and
- At least 50% of the off-screen talent by cost must have their usual place of employment in the UK outside the M25 (‘off-screen talent’).

¹ Channel 4’s out of England hours/spend quotas will increase to 12% from 2030.

² A base will be taken to be substantive if it is the usual place of employment of executives managing the regional business, of senior personnel involved in the production in question, and of senior personnel involved in seeking programme commissions.

³ On-screen talent, archive material, sports rights, competition prize money and copyright costs.

Made Outside London programme titles register 2025

Each regional production must be assigned to either Northern Ireland, Scotland, Wales, one of three English macro regions, or – if the substantive base criteria is not met, and the production spend and off-screen talent criteria were achieved but were not met in a single macro region – be labelled as ‘multi-English region’, ‘multi-nation outside England’ or ‘other’, as relevant.

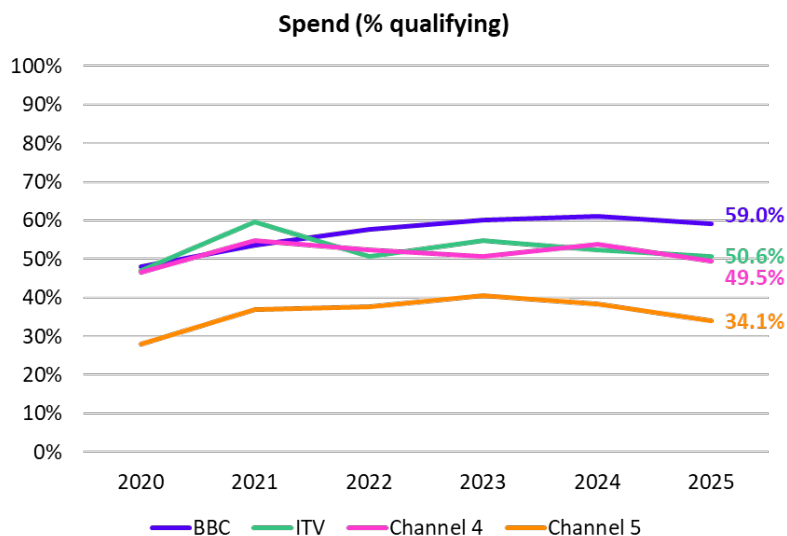

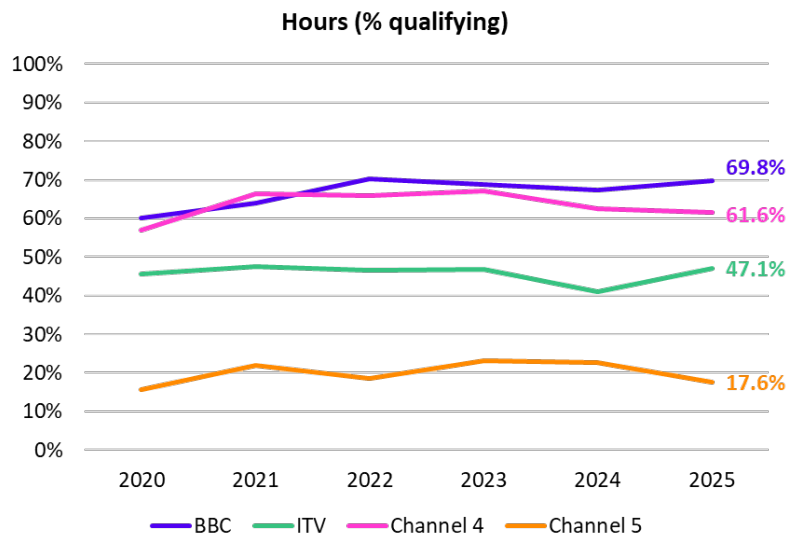

Further detail on the current [regional production and regional programme definitions](#) guidance is available on our website.

Regional production in 2025: at a glance

The Made Outside London programme titles register sets out the titles of programmes broadcast during 2025 that the BBC, ITV, Channel 4 and Channel 5 reported as ‘Made Outside London’ productions. The qualifying hours and spend of these titles contribute to the regional production quota outturn set out below and in our [PSB Annual Compliance Reports](#).

PSBs’ performance against regional production quotas in 2025

All the PSBs exceeded their overall regional production quotas in 2025. Each individual broadcaster’s performance is shown below. The BBC must meet a quota of 50% for hours and spend. ITV and Channel 4 have quotas of 35% for both. Channel 5 has a quota of 10% for both.

Source: Ofcom/broadcasters.

The BBC and Channel 4 met or exceeded their nations specific quotas. The BBC allocated 37.5% of hours and 33.1% of spend to English regions (quota: 30%), 19.8% of hours and 10.4% of spend to Scotland (quota: 8%), 8.6% of hours and 9.1% of spend to Wales (quota: 5%), and 3.2% of hours and 3.2% of spend to Northern Ireland (quota: 3%). Channel 4 allocated 13.7% of hours and 10.4% of spend to out of England productions (quota: 9%).⁴

Made Outside London title allocations

There were 684 separate entries in the Made Outside London programme titles register in 2025. Of these, 65% (446) were allocated overall to English regions outside London, 17% (117) to Scotland, 9% (64) to Wales, and 7% (46) to Northern Ireland. A further 2% (11) entries were for programmes made across multiple nations and English regions and therefore designated as ‘Other’.

Entries in the 2025 Made Outside London programme titles register, by nation and broadcaster

	BBC	ITV	Channel 4	Channel 5	Total
English regions	227	48	84	87	446
Northern Ireland	34	4	5	3	46
Scotland	82	7	21	7	117
Wales	48	3	9	4	64
Other	7	0	4	0	11
Total	398	62	123	101	684

Source: Ofcom/broadcasters. ‘English regions’ refers to titles allocated to the three English macro regions (Midlands & East, Northern England, Southern England) or allocated to ‘multi-English region’. ‘Other’ refers to titles qualifying as Made Outside London but made across multiple nations and English regions.

The Register below lists all the titles submitted by the PSBs as being ‘Made Outside London’ in 2025. We also provide an [interactive version](#), which enables users to explore trend data and filter productions by which Made Outside London criteria they have met. We periodically conduct spot-checks on the Made Outside London register, which we undertake as set out in the [Statement: Review of Regional TV Production and Programming Guidance \(2019\)](#). On occasion, these spot-checks might result in changes to the register. In a small number of cases, PSBs may submit provisional data, and so it may be necessary to update the register at a later date. Any change will be denoted by a revised publication date.

⁴ Source: Ofcom/broadcasters. All references to proportions of hours and spend refer to *qualifying* hours and spend.

Channel 4’s out of England hours/spend quotas will increase to 12% from 2030.

For more information on trends in out of London production over time, see our [interactive report](#).

Made Outside London programme titles register: 2025

Programme titles are listed in alphabetical order, by broadcaster. ‘Other’ indicates the criterion was met, but not in a single nation or region. Blank entries under individual criterion mean that the criterion was not met. Blank entries under production company indicate that the title was produced in-house.
