
Made Outside London programme titles register 2016

About this document

Section 286 of the [Communications Act 2003](#) requires that Channels 3 and 5 each produce a suitable proportion, range and value of programmes outside of the M25. Channel 4 faces a similar obligation under Section 288.

On 3 April 2017, Ofcom became the first external regulator of the BBC. Under the Charter and Agreement, Ofcom must set an operating licence for the BBC's UK public services containing regulatory conditions. We are currently consulting on the proposed quotas as set out in the draft operating licence published on 29 March 2017. See <https://www.ofcom.org.uk/consultations-and-statements/ofcom-and-the-bbc> for further details. As our new BBC responsibilities did not start until April 2017 and this report is based on 2016 data, the BBC quotas reported on herein were set by the BBC Trust.

This document sets out the titles of programmes that the BBC, ITV, Channel 4 and Channel 5 certified were 'Made outside of London' (MOL) productions broadcast during 2016. The name of the production company responsible for the programme is also included where relevant. Wherever this column is empty the programme was produced in-house by the broadcaster.

Further information from Ofcom on how it monitors regional production can be found at https://www.ofcom.org.uk/data/assets/pdf_file/0019/87040/Regional-production-and-regional-programme-definitions.pdf.

The three criteria under which a programme can qualify as MOL are:

- i) The production company must have a substantive business and production base in the UK outside the M25. A base will be taken to be substantive if it is the usual place of employment of executives managing the regional business, of senior personnel involved in the production in question, and of senior personnel involved in seeking programme commissions – 'Location' in the data set out in this register below;
- ii) At least 70% of the production budget (excluding the cost of on-screen talent, archive material, sports rights, competition prize-money and copyright costs) must be spent in the UK outside the M25 – 'Spend' in the data set out in this register below; and
- iii) At least 50% of the production talent (i.e. not on-screen talent) by cost must have their usual place of employment in the UK outside the M25. Freelancers without a usual place of employment outside the M25 will nonetheless count for this purpose if they live outside the M25 – 'Crew' in the data set out in this register.

To qualify a series must meet at least two of these three criteria.

There are seven main territories to which a MOL programme can be allocated:

- i) Scotland; or
- ii) Wales; or

- iii) Northern Ireland; or
- iv) South of England (comprising the South-West and South-East England);
- v) Midlands/East of England (West Midlands, East Midlands and East of England);
- vi) North of England (Yorkshire and Humber, North-West and North-East England).
- vii) In 2011 a seventh territory, Other, was introduced for regional productions from London producers which did not meet both 70% of spend and 50% of talent in any one particular Macro Region. See https://www.ofcom.org.uk/_data/assets/pdf_file/0019/87040/Regional-production-and-regional-programme-definitions.pdf for further details.

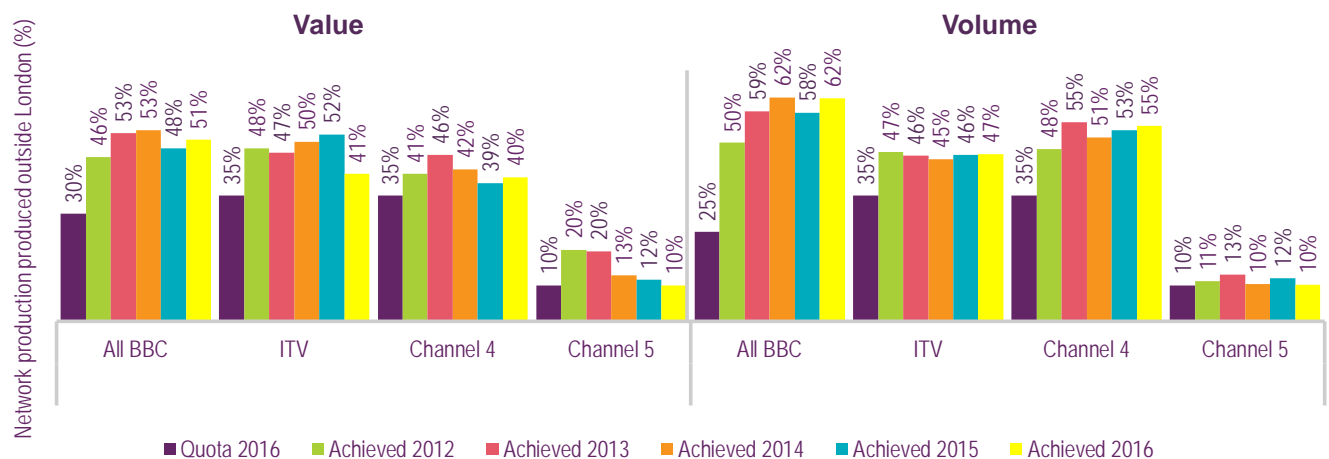

Ofcom has committed to undertaking a review of the Made outside London guidance. We intend to commence the review in the 2017/18 financial year and will seek views from across the sector throughout this process, to help inform our work¹.

¹ Please see *Holding the BBC to account for the delivery of its mission and public purposes*, para 4.106 https://www.ofcom.org.uk/_data/assets/pdf_file/0033/99519/bbc-performance-consultation.pdf

1. Overview

In 2016, the BBC, ITV, Channel 4 and Channel 5 report that they met both their value and volume-based MOL quotas, as illustrated in Figure 1.

Figure 1: Performance against MOL quotas 2012 - 2016

Source: PSB Broadcasters. BBC Three data includes only the broadcast hours prior to the channel moving to online only in February 2016.

In 2016 the PSBs broadcast a total of 744 titles² produced outside London. Of these, the PSBs report that 47% were produced by external production companies and 53% were produced in-house.

- In 93% of cases the producer / broadcaster had a substantive base in the region (see 1.4.1 for definition)
- In 92% of cases the producer / broadcaster spent at least 70% of the production budget in the region (see 1.4.2 for definition)
- In 97% of cases the producer / broadcaster hired a significant proportion of local production talent (see 1.4.3 for definition)

With regards to the 47% (350 titles) produced by external production companies, the PSBs report that:

- In 89% of cases the production company had a substantive base in the region (see 1.4.1 for definition).
- In 85% of cases the production budget was spent in the region (see 1.4.2 for definition).

² In the following register a title can refer to a one-off programme or a series. The register does not include every episode of every programme. For example, 'Match of The Day' appears only once as it is always produced under the same criteria. 'Match of The Day 2' and 'MOTD Live' also appear as they are standalone programmes that *could* qualify under varying criteria.

- In 96% of cases the production company hired a significant proportion of local production talent (see 1.4.3 for definition).

With regards to the 55% (412 titles) produced in-house by broadcasters, the PSBs report that:

- In 97% of cases the production company had a substantive base in the region (see 1.4.1 for definition).
- In 98% of cases the production budget was spent in the region (see 1.4.2 for definition).
- In 99% of cases the production company hired a significant proportion of local production talent (see 1.4.3 for definition).

A full list of titles, regions and broadcasters reported by the PSBs is provided on the following pages. The production company responsible for producing the programme is also listed where relevant. Please note, this list does not relate to the independent production quota, it is published to provide further information on the provenance of the programme only.

Note that the productions set out in this register do not include those commissioned by S4C nor those produced by the BBC for S4C or BBC Alba. They also exclude all programmes commissioned by the BBC and ITV that are only available to viewers in one of the UK's nations or English regions (i.e. regional programming).
