

Key Commitments

Licence number: CR100523

Service name	Radio Newark
Licence area	Newark-on-Trent (as shown in the licensed coverage area map)
Frequency	107.8 MHz

Description of character of service

Radio Newark is for the residents of the town of Newark-on-Trent and some of its surrounding villages. It offers a local service, giving local residents information of direct relevance to themselves and their town as well as the opportunity to contribute to and determine the station's output.

The service broadcasts:

- Music. The music broadcast over the course of each week ranges from the 1960s to the present day. Specialist music programmes also feature.
- Speech: The main types of speech output broadcast over the course of each week are: local traffic reports, what's on information, local business news and advice, interviews, and local sports reports.
- The service provides original output¹ for a minimum of seven hours per day.
- The service provides locally-produced output² for a minimum of 13 hours a day.

The studio is located within the licensed coverage area.

The service provides a range of community benefits (social gain objectives mandated by statute) for the target community, both on-air and off-air, and in doing so, achieves the following objectives:

- the facilitation of discussion and the expression of opinion,
- the provision (whether by means of programmes included in the service or otherwise) of education or training to individuals not employed by the person providing the service, and
- the better understanding of the particular community and the strengthening of links within it.

Members of the target community contribute to the operation and management of the service.

The service has mechanisms in place to ensure it is accountable to its target community.

[April 2015; Revised September 2016]

¹ Original output is output that is first produced for and transmitted by the service, and excludes output that was transmitted elsewhere before. Original output can be live or voice-tracked. Repeat broadcasts of original output do not count towards the minimum requirement.

² Locally-produced output is output made and broadcast from within the service's licensed coverage area.
